🧩 SUMMARY

Devoted and proficient I have over 1 years 7 month of expertise developing powerful web solutions as a full-stack Java developer. I bring technical know-how, a growth attitude, and a genuine commitment to user-centric product development. I am an excellence-driven individual. I am thrilled to work in a collaborative setting on innovative initiatives.

💼 PROFESSIONAL EXPERIENCE

Technical trainer   09/2023 – present
byteXL   Vadodara, India

- Provide practical examples and real-world case studies to demonstrate OOP principles in action.
- Assist trainees in coding exercises and projects, offering guidance and feedback.
- Share personal experiences and best practices from working on OOP-based projects.
- Design applications using a microservices architecture approach, where each functionality (e.g., user management, hotel management, rating, data storage) is implemented as a separate microservice.
- Utilize the Spring Boot framework for building microservices.
- Integrate PostgreSQL, MongoDB, and MySQL databases to store different aspects of the application data.
- Use the Tomcat server for deployment.
- Use Spring Data to interact with databases seamlessly.
- Design RESTful APIs for communication between microservices.

Java Full Stack Developer   06/2022 – 07/2023
SkynetitSolutions pvt ltd   Pune

- I gained practical expertise in both front-end and backend development while designing and building web applications on my own.
- User interfaces (UI) were implemented using HTML, CSS, Bootstrap and JavaScript to guarantee responsive and aesthetically pleasing designs.
- Used PHP and Java along with frameworks like Spring MVC,Spring Boot to contribute to the creation of server-side components.
- Helped with database administration duties, including creating MySQL queries, establishing schemas, and maintaining data security and integrity.
- By reviewing error logs, debugging code, and applying fixes, we successfully located and fixed software flaws and issues.

📁 PROJECTS

Fashion World E-commerce Website ⌕

- Developed an e-commerce website using Spring Core, Spring MVC, JSP, HTML, CSS, MySQL, and Hibernate Implemented Spring Security for user and admin authentication
- Admin Section: Product and category management, feature addition, and cart functionality
- User Section: Product browsing, category navigation, cart management, filters, and purchase capability.

Student Web-Application ⌕

- Created a web application for student management using Spring MVC, JSP, HTML, CSS, and MySQL.
- Implemented CRUD operations for student data management.

🎨 SKILLS

Core Java | Spring Boot | Spring MVC | Spring Cloud | Microservices | RestAPI | MySQL

PostgreSQL | MongoDB | Nodejs | Advance Java | Hibernate | Servlet | Jsp | JavaScript

PHP | JDBC | GIT | HTML | CSS | BootStrap

🎓 EDUCATION

Bachelor Of Technology (Mechanical Engineering)   07/2017 – 08/2021
D.N.Patel College Of Engineering   Shahada

Java Full Stack Development Training   10/2021 – 05/2022
Jspiders   Pune

🗂 CERTIFICATES

- Java Full Stack Software Development Training
- Certificate Of Participation in Codeagoda 2023 ⌕
